Painted sails and paintings of sails. The protagonist of the new exhibit "Sails in Love" at Giudecca 795 is the ancient art of painting on authentic sail. In the tradition of the Upper Adriatic Navy, the sails are coloured with a mixture of earths and sea water.

The sea and its "dress" are now celebrated by **Berico's** sails and four female painters' works: **Paola Delfino, Marta Boccone, Graziella Mario** and **Lorena Robino**. They all have in common the passion for a precious element so full of energy.
